THE COLLEGE

"Amherst College, one of the best known of the so-called small New England colleges, is situated in a beautiful amphitheatre of hills in the town of Amherst, Massachusetts. It was founded in 1821 but did not receive its charter until 1825. Like most early colleges of New England, it was established with the chief aim of preparing students for the ministry. Although soon after its founding the college began to widen the scope of its activities, it has preserved to the present day the idea of a liberal as opposed to a vocational training. Consistent with this purpose it has never added graduate or professional schools, adhering strictly to a course leading to the degree of A.B. with an ever real, though diminishing, emphasis upon the ancient classics." [1]

The corporate name of the institution is "The Trustees of Amherst College."

The general government of the College is vested in the Board of Trustees. Its immediate direction is vested in the Faculty, who are empowered by the Trustees to determine the topics and order and method of study, and to make such rules as may be deemed necessary for the best regulation of the College.

A list of the Presidents of the College, with their terms of service, follows:

Rev. Zephaniah Swift Moore, d.d.	1821–1823
Rev. Heman Humphrey, d.d.	1823–1845

FOLGER SHAKESPEARE LIBRARY

By the will of the late Henry C. Folger of the Class of 1879 there was given to Amherst College the Folger Shakespeare Library in Washington, D. C., together with its collections and an endowment for maintenance, later increased by the generosity of Mrs. Folger. The building, located on East Capitol Street directly east of the Library of Congress, contains an exhibition hall, a small auditorium modeled on an Elizabethan theatre, a large reading room with ample book stacks and vaults, and smaller studies and offices for the Library staff and visiting scholars. A portion of the large collection of books, manuscripts, works of art, and other objects associated with Shakespeare, the Elizabethan Age, and the stage history of Shakespeare's plays, has been placed on display in the exhibition hall and is open to public inspection on week days. The reading room is not open to casual visitors, but permission to read may be obtained by making application to the Director.

DEGREES

BACHELOR OF ARTS

The degree Bachelor of Arts is conferred upon students of Amherst College who have satisfactorily met the requirements prescribed for that degree. The plan of studies leading to the degree Bachelor of Arts is arranged on the basis of a four years' course to be pursued by students in residence at the College.

Diplomas are graded as *rite*, *cum laude*, *magna cum laude*, or *summa cum laude*, according to scholarship.

Summa cum laude rank is fixed at ninety-three per cent, *magna cum laude* at eighty-eight per cent, *cum laude* at eighty per cent, and *rite* at seventy per cent.

MASTER OF ARTS

The degree Master of Arts is conferred upon Bachelors of Arts of Amherst College and of other colleges that confer the Bachelor degree under conditions equivalent to those at Amherst College, who, having secured for their proposed course of study the approval of the Dean, the Department concerned, and the Committee of Six, spend one year in residence at Amherst and satisfy the further requirements for this degree. An application form and a detailed statement of the requirements may be secured from the Dean.

ADMISSION

Correspondence concerning admission to the Freshman Class should be addressed to the Secretary of the Faculty

SUBJECT REQUIREMENTS

The College admits to the Freshman class young men of character, health, and intelligence, selected from applicants for admission who have completed fifteen units in the following list of subjects, as certified by College Entrance Examination Board examinations, or by Regents' examinations, or by school record. The basis for valuation is one unit per course pursued for a school year; which will be understood to mean approximately a quarter of a full year's work.

English, 4 years	3 units
Elementary and Intermediate Algebra, 1½ years	2 units
Geometry, 1 year	1 unit
And from the following,	9 units
Latin	
Greek	
* French	
* German	
History	
Advanced Mathematics	
Science	
Theory of Music (Harmony)	

From the applicants thus qualified, the College will select young men for admission on the following basis:

1. Preference is given to men whose character already gives promise that the advantages the College offers will be wisely used.

---

* Emphasis is placed upon French or German because a reading knowledge of one of these two languages is a college requirement for a degree. Spanish may be accepted for entrance in lieu of either of these if the scholastic record is excellent; but French or German will then have to be elected in college.

2. Preference is given to men of high intellectual ability. This ordinarily will be evidenced by rank well toward the top of the class in approved schools or by high grades in college entrance examinations. The work of the final year in preparation is given particular consideration.
3. Preference in general will be given to students offering three points in English, three in mathematics, and at least five in foreign languages, ancient preferred.
4. Sound preparation is expected in certain subjects which are important implements for the many different branches of college work. English, mathematics, and foreign languages (ancient and modern) are the subjects in which entering students should show proficiency. The other acceptable preparatory courses are in general those which we believe to be most efficiently taught at present in preparatory schools.
5. Good health is recognized as an important qualification for those to whom the College offers its privileges.

ADMISSION SUBJECTS

The detailed description of the requirements in each subject is given in the circular of information of the College Entrance Examination Board referred to below.

APPLICATION FOR ADMISSION

Candidates for admission are urged to file their applications with the Secretary of the Faculty before the beginning of the final year of their preparatory course. The regular application form will be sent on request.

PRESENTATION OF CREDITS

The full fifteen units of credit should be completed in June. Candidates should not count on summer work to

complete their credits, as the quota for the year may be filled in June.

Credits may be presented by College Entrance Examination Board examinations (Plan A, Plan B, or single), Regents' examinations if the grade secured is seventy-five per cent or better, or by acceptable school records at accredited schools.

COLLEGE ENTRANCE EXAMINATION BOARD

Examinations of June 19–26, 1937

The College Entrance Examination Board will hold examinations in June 1937 at over 300 points in the United States and abroad.

A list of places at which examinations will be held will be published about March 1, 1937. Requests that the examinations be held at particular points should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1, 1937.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1. Upon request to the Secretary of the College Entrance Examination Board a single copy of this document will be sent to any teacher without charge. In general, there will be a charge of twenty-five cents, which may be remitted in postage.

Candidates presenting credit in any of their subjects by College Board Examinations should take also the Scholastic Aptitude Test.

All candidates wishing to take these examinations must make application by mail to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York City. Blank forms for this purpose will be mailed by the Secretary of the College Entrance Examination Board to any teacher or candidate upon request by mail.

The applications and fees of all candidates who wish to take the examinations in June 1937 should reach the Secretary of the Board not later than the dates specified in the following schedule:

For examination centers:	
In the United States east of the Mississippi River or on the Mississippi	May 31, 1937
In the United States west of the Mississippi River or in Canada	May 24, 1937
Outside of the United States and Canada, except in Asia	May 10, 1937
In China or elsewhere in the Orient	April 26, 1937

ADMISSION CREDITS BY REGENTS' EXAMINATIONS

Examinations given by the Regents of the State of New York are accepted towards entrance to the extent to which they cover the requirements for admission to Amherst College, provided the Regents' grade is seventy-five per cent or higher.

ADMISSION WITHOUT EXAMINATION

(a) *From Schools in New England.*—From preparatory schools which have been approved by the New England College Entrance Certificate Board certificates are accepted in place of entrance examinations.

(b) *From Schools Outside of New England.*—Candidates from approved schools outside of New England may secure credit for admission without examination in those subjects in which their school record satisfies the Committee on Admissions. Records will be considered from schools which are on the approved list of the North Central Association of Colleges and Secondary Schools, the Association of Colleges and Secondary Schools of the Southern States, or the Middle States Association of Colleges and Secondary Schools. In determining the eligibility of other schools to

the approved list the College follows in general the method of the New England College Entrance Certificate Board.

The reports of school records are made on forms prepared by the College and sent to the principals. A preliminary report in January is supplemented by a final report in June.

ANTICIPATION OF COLLEGE COURSES BY EXAMINATION

Students who have completed in their preparatory schools or in a Junior College studies corresponding to courses given in Amherst College may obtain credit for such courses by special arrangement.

ADMISSION FROM OTHER COLLEGES OR INSTITUTIONS OF COLLEGIATE RANK

To be eligible for transfer the candidate must meet the following requirements:

1. His credits must satisfy the full entrance requirements of Amherst College.

2. He must have completed creditably the work of at least one year in an institution of collegiate rank, and his general average at the institution he is leaving must correspond to or be better than the Amherst diploma average of seventy per cent.

3. He must present a statement of honorable dismissal.

Candidates for admission by transfer are admitted in September only. The Dean will forward on request the application form for admission by transfer of credits.

CURRICULUM

DEGREE BACHELOR OF ARTS

The degree Bachelor of Arts is awarded to candidates who complete twenty year-courses, including a major; who in each of sophomore, junior and senior years elect two courses in two subjects in which courses were taken in the preceding year; and who complete in addition certain work in public speaking and in physical education. The candidates also must have no deficiencies in the work of any year, must have a reading knowledge of French or German, and must attain a general average of seventy per cent.

A major consists of three year-courses in the same subject pursued either (1) during three consecutive years, or (2) during the junior and senior years. A major must be completed in the senior year, and, therefore, it may not be begun until after the freshman year. The senior year course must be one considered by the department to be of advanced character.

Every student is expected to consult a member of the department in which he proposes to take his major course in regard to his plan of work in college.

Courses of study are by years. Each student takes five courses in each year, no student taking more than six courses. (This does not apply to Public Speaking 1.)

Early in his college course the student should note the prerequisites of the various departments in order that he may not be prevented from making the elections which he desires.

CURRICULUM

FRESHMAN YEAR

1–5. Each Freshman elects five courses from the following group:

Latin	Mathematics
Greek	Biology
French [a]	Chemistry
German [a]	Physics
English	Man and His Environment
History	

6. Public Speaking 1 [b]
7. Physical education

SOPHOMORE YEAR [c]

1–5. Elective
6. Physical education

JUNIOR YEAR [c]

1. Major
2–5. Elective
6. Physical education

SENIOR YEAR [c]

1. Major
2–5. Elective

---

[a] Especial attention is called to the fact that the reading-knowledge examination in French or German may be taken in the fall of the freshman year by those students only who present for admission three units in the language. Such an examination may be taken in the spring of the freshman year by those who present but two units of French or German provided the language has been continued during the freshman year.

If the reading requirement of French or German has not been satisfied during freshman year one of these languages must be elected in sophomore year.

[b] This course runs through the year and requires attendance and study approximately equal in amount to one-third that of a regular three-hour course.

[c] Two of the courses elected must be in two subjects in which courses were taken the preceding year.

COURSES OF INSTRUCTION

Each of the following courses extends throughout the year.

Unless the contrary is stated, members of any class are permitted to elect courses which are open to the members of a lower class.

ASTRONOMY

NOTE.—In order that a student may present a major in astronomy or be a candidate for final honors in astronomy it is desirable for him to elect Astronomy 1 in his sophomore year.

1. Introduction to Astronomy. Professor GREEN.

Elementary plane trigonometry and logarithms requisite. *Elective for Sophomores.*

2. Practical Astronomy and Navigation. Professor GREEN.

Astronomy 1, or the consent of the instructor, requisite. Three hours per week with the understanding that two hours of observatory work may be substituted at any time for one hour of class-room work. *Elective for Juniors.*

5. Special Problems in Astronomy. Professor GREEN.

Individual work at the Observatory on assigned problems. Reports and discussions at frequent intervals. Astronomy 1, Physics 1, Mathematics 2, and Astronomy 2 requisite. *Elective for Seniors.*

BIOLOGY

NOTE.—Students intending to enter a medical school should elect at least courses 1 and 4.

1. General Biology. Professor GLASER and Mr. MCGOUN.

An introduction, especially arranged to serve as part of a program of liberal study. Chemistry 1 or Physics 1 recommended. Three hours class-room and two hours laboratory work per week. Fee, $10.00. *Elective for Sophomores, and for Freshmen offering entrance Chemistry, or Freshmen taking Chemistry 1 concurrently.*

2. Zoölogy. Professor PLOUGH and Mr. MCGOUN.

A study of the natural history, ecology, and classification of animals, especially the local invertebrates. Life histories, distribution, behavior, and interrelations of organisms will be studied in the laboratory and in the field. Field trips may be substituted for laboratory periods or for

class-room hours at any time during the year. Three class-room hours and one laboratory period per week. M. and E., or Biology 1, or the equivalent, requisite. Fee, $10.00. *Elective for Sophomores.*

3. Introductory Course in Botany. Professor GOODALE.

The structure and physiological processes of the flowering plants. The relation of botany to the other sciences and the importance of plant life to humanity and to other forms of life. During the latter part of the year the student is introduced to field work and prepares a collection of plants identified by himself. Fee, $10.00. *Elective for Sophomores.*

4. Vertebrate Morphology (Histology and Anatomy). Professor SCHOTTÉ.

In this course the morphology of the chief vertebrate types is considered from the points of view both of gross and of microscopical anatomy. One semester is devoted to laboratory work in histological technique and to the microscopical study of cellular structure, function, and arrangement into tissues and organs. The comparative study of the principal organ systems of vertebrates during the second semester, based on dissection, is considered as a necessary preparation for a better understanding of human anatomy. Three class-room hours and one laboratory period per week. Biology 1 or 2 requisite. Fee, $15.00. *Elective for Juniors.*

5. Microbiology. Professor PLOUGH.

An introduction to the methods of isolating, cultivating and studying micro-organisms. Two class-room hours and two laboratory periods per week. One course in biology requisite. Fee, $10.00. *Elective for Juniors.* (*Omitted 1936–1937*)

6. Evolution of the Plant Kingdom. Professor GOODALE.

The evolution and development of plant life from the lowest forms up through the mosses, fern-allies, and seed-plants. The phylogeny of the various groups, as presenting the process of evolution actually occurring. Fossil as well as existing forms are included. Biology 1 or 3 requisite. Three hours class-room and two hours laboratory work per week. Fee, $10.00. *Elective for Juniors.*

7. Embryology and Genetics. Professors SCHOTTÉ and PLOUGH.

The first semester is devoted to the study of embryology, or heredity in action. The morphology and physiology of development of the chief vertebrate types (embryogenesis and organogenesis) is considered from the standpoint of modern experimental embryology. The general

problem of how latent units become patent in the characters of the adult leads naturally to the study of genetics. The second semester deals with the problem of nature and nurture. The study of gametogenesis and fertilization gives the physical basis of heredity, after which the experimental evidence for genes or hereditary units and their modes of transmission is reviewed. The relations of genetics to evolution, to practical breeding, to sex, and to disease, are considered. Three class-room hours and one laboratory period per week. Biology 1 or 2 requisite. Fee, $10.00. *Elective for Juniors.*

9. Problems in Biology. Professors GLASER, PLOUGH, and SCHOTTÉ.

Individual work in the laboratory on assigned problems. Three courses in biology requisite; of which one may be taken concurrently. Six hours of laboratory work or the equivalent per week, together with assigned reading. Students must attend the weekly seminar and make occasional reports. Fee $10.00. *Elective with the consent of an instructor for Seniors and Graduate Students.*

10. Plant Ecology and Geographical Distribution. Professor GOODALE.

The interrelationships of plants with each other, with animals, and with their environment. Special advanced study involving field work and a thesis may be required. A seminar course. A grade of B in Biology 3 requisite. *Elective for Juniors.*

H. Course for Honors Candidates.

The course includes a weekly seminar under the direction of Professor Glaser. Students will register for Biology 9, and follow a program of work approved in advance by some member of the department.

CHEMISTRY

NOTE.—Students preparing for medical school should take both Chemistry 2 and Chemistry 4. Chemistry 3 is desirable, and for some medical schools, necessary.

1. General Chemistry. Professor BEEBE and Dr. LOW.

Three hours class-room and two hours laboratory work per week. Fee, $10.00. *Elective for Freshmen.*

2. Inorganic Chemistry. Professor DOUGHTY and Mr. JOHNSON.

Class work; introduction to theoretical chemistry, with especial emphasis on the kinetic theory, theory of solutions, and applications of chemical equilibrium. Laboratory work; inorganic preparations (until

Christmas); qualitative analysis (after Christmas). Mathematics 1 requisite; may be taken concurrently. Three hours class-room and three hours laboratory work per week. Fee, $20.00. *Elective for students who have credit for Chemistry 1 or who can pass an examination in elementary chemistry set by the department. Students whose grade in Chemistry 1 is less than seventy-five per cent are advised not to elect Chemistry 2.*

3. Quantitative Chemistry. Professor BEEBE and Dr. LOW.

First semester: Laboratory work in gravimetric and volumetric analysis. Second semester: Selected typical measurements in physical chemistry. Chemistry 2 requisite. One class-room hour and seven hours laboratory work per week. Fee, $20.00. *Elective for Sophomores.*

4. Organic Chemistry; an Introduction to the Chemistry of the Compounds of Carbon. Professor DOUGHTY and Mr. JOHNSON.

General theory of organic chemistry and preparation of typical compounds. Chemistry 2 requisite. With the permission of the instructor Chemistry 2 may be taken concurrently with this course. Three hours class-room and three hours laboratory work per week. Fee, $20.00. *Elective for Juniors.*

5. Thermodynamics. Professor WHITNEY.

A study of the laws of entropy and energy from a theoretical point of view, together with their applications to physico-chemical phenomena. Chemistry 1 and Mathematics 2 requisite; Physics 1 and/or Chemistry 2 recommended. Two hours lectures and one hour conference per week. No laboratory. *Elective for Juniors.* (*Given in alternate years. Omitted in 1936–1937.*)

H. Course for Honors Candidates.

This course will consist of special topics, which may vary with individual needs, and will usually include Chemistry 5 and laboratory problems. *Elective for Seniors.*

ECONOMICS

1. Introduction to Economics. Professor COLE.

An historical approach to the economic problems of the present day: the study of the development of economic life and thought from the Middle Ages to the present day. Prerequisite for all other courses in economics. Book fee, $2.00. *Elective for Sophomores.*

2. Economic Analysis. Dr. PABST.

The principles of neo-classical and imperfect competition economics: the development of modern price theories and their statistical interpretations. Economics 1 requisite.

3. Economic History of the United States. Professor TAYLOR.

A study of the economic development of the United States from the Colonial period down to the present time. Economics 1 requisite. Book fee, $2.00. *Elective for Juniors.*

4. History and Theory of the Labor Movement. Professor WARNE.

The economic and social relations of the wage-earners with the employers and the public; trade and company unionism, labor legislation, social insurance, co-operation, and political action. Economics 1 requisite. Book fee, $2.00. *Elective for Juniors.*

5. Money, Banking and Public Finance. Professor WARNE.

An examination of the history and underlying principles of money, banking and public finance. Economics 1 requisite. *Elective for Juniors.*

7. Advanced Composition. Professor MORTON.

Continual writing with the criticism of instructor and class to develop original talent and good craftsmanship. Laboratory discussion groups and reading for background. Admission subject to competitive test in writing to be given before election of the course. *Elective for Juniors.*

9. Eighteenth Century English Literature. Professor BAIRD.

A study of representative prose works, with emphasis on the relationship of the literature to the age. *Elective for Juniors.* (*Omitted 1936–1937*)

10. Modern Drama. Professor CANFIELD.

English and American drama from 1660 to the present. *Elective for Seniors.*

11. The Romantic Movement. Professor ELLIOTT.

Intensive study of the chief English poets of the nineteenth century with a rapid survey of the history of poetry from the Renaissance to the present. A philosophy of poetry is attempted. *Elective for Seniors.*

12. American Literature. Professor WHICHER.

A rapid survey of the formative period of American literature; special studies of important books by nineteenth century authors; exploration among recent writers. *Elective for Seniors.*

13. Moods of the World Today, as revealed in Modern English and American Poetry and Prose. Professor MORTON.

A course in the examination of prevailing mental states in the English-speaking countries, as seen in the work of modern imaginative writers. *Elective for Seniors.*

H. Conference Course for Honors Candidates.

Elective for Seniors; in exceptional cases, for Juniors.

During a part of the year Professor Robert Frost will be in residence to conduct special classes in English and to hold informal conference with students.

B. PUBLIC SPEAKING

1. Fundamentals of Oral Expression. Professor GARRISON and Mr. THEOBALD.

A consideration of the principles of correctness, clearness, and effectiveness in speaking, with practice in reading and in the delivery of short original speeches. One hour per week. Fee, $1.00. *Required for Freshmen.*

2. Debating; Extemporaneous Speaking; Psychology of the Audience. Professor GARRISON.

A grade of B in Public Speaking 1, and the consent of the instructor, requisite. Fee, $1.00. *Elective for Sophomores.*

3. Advanced Reading. Mr. THEOBALD.

Cultivation through solo and choral speaking of the ability to discern, interpret, and communicate fine poetry. Preparation of critiques and

lecture readings. Examinations written and oral. A grade of B in Public Speaking 1 requisite. *Elective for Sophomores.*

FINE ARTS

NOTE —A major in Fine Arts includes courses 1 and 2 and a third course selected upon recommendation of the instructor in charge, which may be a course outside the Fine Arts department.

1. A History of the Development of Architecture, Sculpture, and Painting. Professor SCOTT.

Elective for Juniors.

2. The Arts of the Nineteenth and Twentieth Centuries.

A study of both the major and minor arts of the period, including a survey of their Renaissance sources. *Elective for Seniors.* (*Omitted 1936–1937*)

4. Technique and Design. Professor SCOTT.

This course provides a basis for understanding, appreciation, or performance in the arts of drawing, painting, and print-making. It includes the study, both in theory and in practice, of fundamentals of line, form, and color, of past and present materials, methods, and modes of expression, of design and composition. One lecture and three laboratory hours per week. No previous training needed. Preference will be given to those who have had Fine Arts 1. *Elective for Seniors.*

H. Conference Course for Honors Candidates.

Elective for Seniors. (*Omitted 1936–1937*)

FRENCH

1. Elementary and Intermediate Course. Dr. ROUILLARD.

Equivalent to entrance French A and B. This course meets five hours per week and is designed to prepare students for French 3. *Elective for Freshmen.*

2. Advanced Course. Professor WILLIAMS, Dr. ROUILLARD and Mr. STEARNS.

Requisite: Entrance French A, or French 1 (in 1935–1936 or earlier). Equivalent to entrance French B. *Elective for Freshmen.*

NOTE.—Beginning in 1937–1938, this course will be described as "Intermediate Course," and will not admit from French 1 taken in 1936–1937 or later.

3. Readings in French Literature of the Nineteenth Century; Oral Drill. Professors ATKINSON, WILLIAMS and FUNNELL, Dr. ROUILLARD and Mr. STEARNS.

Requisite: Entrance French B, French 2, or (after 1936–1937) French 1 taken in 1936–1937 or later. *Elective for Freshmen.*

4. Survey of French Literature from the beginning through the Nineteenth Century. Professor FUNNELL.

Requisite: French 3, or (for 1936–1937 only) a grade of A in French 2. Required of candidates for honors in French. *Elective for Sophomores.*

NOTE.—Beginning in 1937–1938, this course will be described as "Readings in French Literature before 1800," will not admit from French 2, and may not be elected *after* French 6, French 8 or French 9.

5. French Drama of the Nineteenth Century. Professor WILLIAMS.

Requisite: A grade of C in French 3 or in French 4. Courses 5 and 10 are given in alternate years. *Elective for Sophomores.*

6. French Literature of the Eighteenth Century. Professor FUNNELL.

Requiste: A grade of C in French 3 or in French 4. Courses 6 and 11 are given in alternate years. *Elective for Juniors.*

8. French Literature of the Seventeenth Century. Professor TURGEON.

Requisite: A grade of C in French 3 or in French 4. *Elective for Juniors.* (*Omitted 1936–1937*)

9. French Essayists and Moralists. Professor ATKINSON.

Requisite: A grade of C in French 3 or in French 4. *Elective for Juniors.*

10. The Rise and Development of the French Novel. Professor WILLIAMS.

Requisite: A grade of C in French 3 or in French 4. Courses 10 and 5 are given in alternate years. *Elective for Sophomores.* (*Omitted 1936–1937*)

11. French Poetry. Professor ATKINSON.

Requisite: A grade of C in French 3 or in French 4. Courses 11 and 6 are given in alternate years. *Elective for Sophomores.* (*Omitted 1936–1937*)

12. Advanced Composition and Conversation. Professor ATKINSON.

Requisite: A grade of B in French 3, or in French 4 if taken as a Freshman course in 1935–1936 or earlier. *Elective, with the permission of the instructor, for Sophomores.*

H. Conference Course for Honors Candidates.

Elective for Juniors.

An optional course, without credit, in French conversation is offered in the late afternoon hours from Thanksgiving until May.

Appropriate material to be read in preparing for the Reading Examination will be suggested by the teachers of French to students not enrolled in French courses.

GEOLOGY

NOTE.—Courses 4 and 5 may not both be elected.

1. Geology and Physiography. Professors LOOMIS and BAIN.

An introduction to the processes, origin and history of land surfaces, rock structure and life development to enable one to understand the meaning and values of the country in which he may live or travel or about which he may read. Three hours class-room and two hours laboratory work per week. Field trips in the fall and field work in the spring will be substituted for laboratory work. *Elective for Sophomores.*

2. Historical Geology. Professor LOOMIS.

An outline of the history of life, including the succession of life faunas, and the evolution of the vertebrates. Geology 1 requisite. Three hours class-room and two hours laboratory work per week. *Elective for Juniors.*

3. Mineralogy and Petrography. Professor BAIN.

Mineralogy first semester. Petrography second semester. Mineralogy includes identification, uses and occurrences of minerals, geographic relations of source and consumption, use of minerals in tracing out ancient channels of trade. Petrography treats of rock identification and origin as seen in texture, structure and mineral composition. Geology 1 requisite. Three hours class-room and two hours laboratory work per week. Field trips to mineral localities will be substituted for laboratory work during the first six weeks. *Elective for Juniors.*

4. Studies in the Evolution of the Vertebrates. Professor LOOMIS.

A grade of B in the latter of two courses in geology requisite. Three hours class-room and several hours laboratory work per week. *Elective for Seniors.* (*Omitted 1936–1937*)

5. Structural Geology and Mineral Deposits. Professor BAIN.

Structural geology treats of the architecture of the earth, the structural units of it, the manner in which the parts are assembled, and the manner of recognition of the date and construction of the units. Mineral deposits treats of the abnormal local abundance of a mineral and cause of concentration. Geology 3 requisite. One or more conferences and several hours laboratory and library work per week. *Elective for Seniors.*

GERMAN

1. Elementary Course. Dr. SCENNA and Messrs. KERN and WAGMAN.

Grammar, pronunciation, composition, colloquial exercises, syntax, translation from prose selections. Equivalent to entrance German A. *Elective for Freshmen.*

2. Advanced Course. Professor EASTMAN, Dr. SCENNA and Messrs. KERN and WAGMAN.

Prose composition, with review of grammar; reading of modern prose; Schiller and Goethe, a representative work of each author; composition and free reproductions. Equivalent to entrance German B. *Elective for Freshmen.*

3. Goethe's Dramas. Professors EASTMAN and MANTHEY-ZORN.

Lectures, essays, assigned readings. *Faust:* study of the Faust legend and of the life of Goethe. *Division 3a elective for Juniors; division 3b elective for Freshmen.*

4. The German Novel. Professor EASTMAN.

German 3, or the equivalent, requisite. *Elective for Sophomores.* (*Omitted 1936–1937*)

5. The German Drama. Professor MANTHEY-ZORN.

A study of the German drama from Lessing to the present. German 3, or the equivalent, requisite. *Elective for Sophomores.*

6. Middle High German. Professor EASTMAN.

Epics and lyric poetry of the Age of Chivalry. German 4 or 5 requisite. *Elective for Juniors.*

8. German Philosophy. Professor MANTHEY-ZORN.

Readings in German philosophy together with assignments of individual problems. Outside readings, conferences, class reports and discussions. German 3, or its equivalent and one further course in German or a course in philosophy, requisite. *Elective for Seniors.*

H. Conference Course for Honors Candidates.

Elective for Seniors.

GREEK

Students in Greek should take note of History 10, "History of Greece to the Roman Conquest."

1. Greek Language; a Course for Beginners. Professor FOBES.

An introduction to the Greek language and literature. *Elective for Freshmen.*

2. Introduction to Greek Literature. Professor SMITH.

Readings from Attic Greek and from Homer. Greek 1, or its equivalent, requisite. *Elective for Freshmen.*

3. Greek Literature; Herodotus, Plato, Euripides. Professor FOBES.

Greek 2, or entrance Greek A, B, H, requisite. *Elective for Freshmen.*

4. Greek Drama; Aeschylus, Sophocles, Aristophanes. Professor SMITH.

Greek 3 requisite. *Elective for Sophomores.*

5. The History of Greek Literature.

Greek 5 may not be taken in the same year with Latin 5. *Elective for Juniors.* (*Omitted 1936–1937*)

6. Greek Epic Poetry or Greek Comedy.

Greek 3 requisite. *Elective for Sophomores.* (*Omitted 1936–1937*)

7. Greek Philosophy: Plato's *Republic* and Aristotle's *Ethics.* Professors FOBES and SMITH.

Greek 4 or 6 requisite. *Elective for Juniors.*

H. Conference Course for Honors Candidates.

Elective for Seniors.

HISTORY

1. Introduction to the History of Contemporary Civilization. Professor PACKARD and Dr. HAVIGHURST.

A survey of the development of the European civilization since the disintegration of the Roman Empire. Prerequisite for the subsequent courses, History 2, 4, 5, 7, 9, 13. Book fee, $2.00. *Elective for Freshmen.*

NOTE.—This course, followed by Economics 1 in sophomore year, will satisfy the sequence requirement.

2. The Middle Ages. Professor SALMON.

A study of institutional and intellectual developments in Europe from the end of the Roman Empire through the fifteenth century. History 1 requisite. Book fee, $2.00. *Elective for Sophomores.*

3. English History. Professor GALLINGER.

A general course in the history of England and Greater Britain, covering the development of political, social and economic institutions. *Elective for Juniors.*

4. The Age of the Renaissance. Dr. WILLIAMS.

History 1 requisite. *Elective for Juniors.*

5. Europe Since 1871. Professor PACKARD.

A fairly detailed study of the origins and course of the World War and of the post-war settlement. Courses 5 and 13 are given in alternate years. History 1 requisite. Book fee, $2.00. *Elective for Juniors.* (*Omitted in 1936–1937*)

6. American History. Mr. OVERTON.

The growth and development of modern America, 1760 to the present. History 1 requisite. Book fee, $2.00. *Elective for Sophomores.*

7. History of Latin America. Professor SALMON.

The history of Hispanic America from the period of discovery to the present, with a survey of Spanish civilization. History 1 requisite. Book fee, $2.00. *Elective for Sophomores.*

8. European History, 1648 to 1871. Professor GALLINGER.

The first semester is devoted mainly to the French Revolution, the second to the growth of machine industry, nationalism and democracy. Slight attention is paid to military and diplomatic affairs, the emphasis being placed on social, economic, and intellectual developments. *Elective for Juniors.*

9. An Introduction to Historiography. Professors PACKARD and SALMON.

The nature and theory of history; historical literature and problems; individual studies in nineteenth century biography. History 1 requisite. Election limited to twelve students. *Elective, with the consent of the instructor, for Seniors.*

10. History of Greece to the Roman Conquest. Professor SHERMAN.

Origins and characteristics of the Greek city states; political and constitutional development; spread of Hellenism in the ancient world. May be counted toward a major, or major with honors, in history but not in Greek. Courses 10 and 11 are given in alternate years. Book fee, $2.00. *Elective for Sophomores.*

11. History of Rome to the Fall of the Western Empire. Professor SHERMAN.

The political history of Rome with special emphasis on the development of constitutional history; the social and economic aspects of Roman civilization. May be counted toward a major, or major with honors, in history but not in Latin. Courses 11 and 10 are given in alternate years. Book fee, $2.00. *Elective for Sophomores.* (*Omitted 1936–1937*)

12. Constitutional History of England. Dr. HAVIGHURST.

Growth of the Common Law; evolution of Parliament; rise of the Cabinet; recent developments. *Elective for Juniors.*

13. Europe in the Age of Louis XIV. Professor PACKARD.

A reading knowledge of French requisite. Courses 13 and 5 are given in alternate years. History 1 requisite. Book fee, $2.00. *Elective for Juniors.*

D. Conference Course for Candidates for Divisional Honors.

Elective for Juniors.

H. Conference Course for Honors Candidates.
Elective for Seniors.

ITALIAN

1. Pronunciation, Grammar, Translation. Professor BAXTER.

Stories by Castelnuovo, Farina, Verga, Fucini, Serao, Deledda, Negri, Papini, Pirandello. *Elective for Sophomores.*

2. Advanced Course. Professor BAXTER.

Selected tales from Boccaccio, *Decameron* (Fornaciari edition); Machiavelli, *Il Principe;* Castiglione, *Il Cortegiano;* Ariosto, *Orlando Furioso.* *Elective for Juniors.*

3. Dante. Professor BAXTER.

La Vita Nuova, Divina Commedia. Lectures on Dante and his times. *Elective for Juniors.* (*Omitted 1936–1937*)

LATIN

Students in Latin should take note of History 11, "History of Rome to the Fall of the Western Empire."

A. Vergil, *Aeneid*, Books I–VI. Mr. KERN.

Elective for those who present three units in Latin, not including poetry authors.

1. Pliny, selections from the *Letters;* **Catullus,** selections; **Cicero,** *De Senectute;* **Horace,** selections from the *Odes* and *Epodes.* Professors BENNETT and ROWLAND.

Elective for those who present four units in Latin for entrance, or for those who have completed Latin A.

2. Plautus, *Trinummus,* or **Terence,** *Andria;* **Livy,** selections from Books I–X; **Tacitus,** *Germania* and *Agricola.* Professor BENNETT.

Latin 1 requisite. *Elective for Sophomores.*

3. Roman Oratory; Cicero, *Philippics.* **Roman Satire; Horace, Juvenal, Martial.** Professor ROWLAND.

Elective for Juniors.

4. Roman Philosophy. Lucretius, *De Rerum Natura;* **Cicero,** selected philosophical works. Professors BENNETT and ROWLAND.

Latin 2 requisite. *Elective for Juniors.*

5. Roman Civilization. Professors ROWLAND and BENNETT.

A survey of the contributions made by Rome to subsequent civilization. Studies of the development and significance of political institutions, religion, law, education, philosophy, art and architecture; private life and antiquities. *Elective for Juniors.*

6. Historical and Law Literature of the Empire. Tacitus, *Annals* and *Histories;* **Suetonius,** *Lives of the Caesars;* **Justinian,** *Institutes;* **Gaius,** *Institutes.*

Latin 2 requisite. *Elective for Juniors.* (*Omitted 1936–1937*)

H. Conference Course for Honors Candidates.

Elective for Seniors.

MATHEMATICS

1. Plane Trigonometry, Plane Analytic Geometry, and an Introduction to the Differential and Integral Calculus. Professors ESTY, PORTER and BROWN.

Elective for Freshmen who do not present trigonometry for entrance credit.

2. Differential and Integral Calculus. Professor BROWN.

Mathematics 1 or 5 requisite. *Elective for Sophomores.*

3. Vector Analysis, with Applications to Analytical Mechanics. Professor ESTY.

Mathematics 2 requisite. *Elective for Juniors.* (*Omitted 1936–1937*)

4. (a) Differential Equations; (b) Relativity. Professor COBB.

Mathematics 2 requisite. *Elective for Juniors.*

5. Analytic Geometry and an Introduction to the Differential and Integral Calculus. Professor SPRAGUE.

Elective for Freshmen who present trigonometry for entrance credit.

6. (a) Theory of Functions of a Real Variable; (b) Theory of Functions of a Complex Variable. Professor COBB.

Mathematics 2 requisite. *Elective for Juniors.*

7. Algebra. Professor SPRAGUE.

Mathematics 2 requisite. Courses 7 and 9 are given in alternate years. *Elective for Juniors.*

8. Statistics. Professor COBB.

Graphic representation, frequency distribution, index numbers, correlation, probability, and least squares. Mathematics 1 requisite. *Elective for Juniors.*

9. Advanced Calculus. Professor BROWN.

Double and triple integrals, geometry of space, partial differentiation, implicit function theory, line and surface integrals, transformation of integrals. Mathematics 2 requisite. Courses 7 and 9 are given in alternate years. *Elective for Juniors.* (*Omitted 1936–1937*)

MUSIC

1. History and Literature of Music. Professor MORGAN.

The development of music studied through its masterpieces. The social and instrumental backgrounds of various epochs. *Elective for Sophomores.*

2. Elementary Theory. Professor MORGAN.

A study of the rhythmic, melodic, and harmonic organization of musical tones. Writing in 2, 3, and 4 parts; analysis; ear training. Ability to play all written work requisite. Students having an inadequate knowledge of the keyboard must make up this deficiency by attending one weekly class in the rudiments of piano playing. Limited to 15 students. *Elective for Sophomores.*

Pianos and reproducing instruments are placed at the disposal of students taking these courses.

3. The Literature of Symphonic Music. Professor HICKS.

An analytical study of the development of symphonic music from the seventeenth century to the present day. Records and orchestral scores of the major symphonic masterpieces will be used. *Elective for Sophomores.*

PHILOSOPHY, PSYCHOLOGY AND RELIGION

A. PHILOSOPHY

A major in philosophy should include Philosophy 1. One of the three courses may be German 8, Greek 7, or Latin 4.

1. History of Philosophy. Professor LAMPRECHT.

A survey of the chief themes of European philosophy in their historical development. Special attention will be given to Plato, Aristotle, the formation of Christian thought, and such modern thinkers as Descartes, Locke, Hume, and Kant. Assigned readings in the sources. *Elective for Sophomores.*

2. Logic and Ethics. Professor KENNEDY.

The conditions under which thinking proceeds, elements of formal logic, induction and scientific method; the social basis of morality, theory of the moral life, morals and social problems. Book fee, $1.00. *Elective for Sophomores.*

4. Platonism and Aristotelianism. Professor LAMPRECHT.

A number of the major works of Plato and Aristotle will be read in English translation, and the classical tradition will be studied as it has found expression in antiquity, St. Augustine and the Schoolmen, and modern times. Courses 4 and 6 are given in alternate years. Philosophy 1 requisite. *Elective for Juniors.*

5. Modern Empiricism. Professor KENNEDY.

The development of empiricism in England and America from the beginning of the nineteenth century to the present. Writings of Bentham, Mill, Spencer, Peirce, James and Dewey will be studied in relation to the economic and social conditions under which they were produced. Book fee, $2.00. *Elective for Juniors.*

6. Philosophy of Religion. Professor LAMPRECHT.

A study of certain periods in the history of religion, the nature of religion, the chief types of religion, mysticism, the relation of religion and morals, the expressions of religion in art and philosophy. Courses 6 and 4 are given in alternate years. *Elective for Juniors.* (*Omitted 1936–1937*)

7. Philosophy of Society; Politics, Ethics, Aesthetics. Professor NEWLIN.

The basis of the State, and the problems of liberty, order, and sovereignty; the nature of ethical conduct in the individual and in society; the principles of aesthetics, and its place, together with religion and philosophy, in human culture. Book fee, $2.00. *Elective for Seniors.*

8. Representative Modern Philosophers. Professor KENNEDY.

A critical study of three or four great modern philosophers. For the year 1936–1937 Spinoza's *Ethics*, Schopenhauer's *The World as Will and Idea*, and Dewey's *Experience and Nature* will be read. One previous course in philosophy requisite. *Elective for Seniors.*

9. Metaphysics. Professor LAMPRECHT.

In 1936–1937 a survey will be made of major developments in contemporary philosophy. Selected readings will be assigned from the writings of Bergson, Dewey, G. E. Moore, Santayana, A. E. Taylor, Whitehead, and Woodbridge. Each student will be expected to choose one of these men for detailed study and to prepare a paper on this man's philosophy. One previous course in philosophy requisite. *Elective for Seniors.*

B. PSYCHOLOGY

NOTE.—For a major in psychology the third course should be selected upon recommendation of the instructor in charge and may be a course outside the department.

1. Introduction to Psychology. Professor TOLL.

Survey of general psychology; present schools of psychology; topics in abnormal psychology, with visits to clinics and institutions; individual study of one or two problems chosen with the approval of the instructor. *Elective for Sophomores.*

2. Special Topics in Psychology. Professor TOLL.

Study of one or two recent books of special interest; individual work on a preferred problem, preferably one in which first-hand data are to be obtained. Psychology 1 requisite. *Elective for Juniors.*

3. Gestalt Theory and other contemporary schools and developments. Professor TOLL.

Psychology 2 requisite. *Elective for Seniors.*

C. RELIGION

NOTE.—For a major in religion the third course may be Philosophy 1, 6 or 7.

1. Introduction to the Old and New Testaments. Professor CLELAND.

This course will survey Israel's political and social history, review the literature, and examine the dominant religious ideas. Book fee, $1.00. *Elective for Sophomores.*

2. The Life and Teaching of Jesus. Professor CLELAND.

The purpose of this course is a critical examination of the records of Jesus' life and teachings, and of the influence of his teaching on modern social ethics. Book fee, $1.00. *Elective for Juniors.*

PHYSICAL EDUCATION

Hygiene. Dr. E. J. MANWELL.

All Freshmen are expected to attend lectures in personal hygiene.

A. Elementary Division in Swimming, Gymnastics, Athletics and Games. Professors MARSH, LUMLEY and ECKLEY, and Messrs. KENNEDY, BRUHN and SOLEAU.

Required of Freshmen, Sophomores and Juniors who have not been advanced to B.

B. Advanced Division in General Activities, Athletics and Games. Professors MARSH, LUMLEY and ECKLEY, and Messrs. KENNEDY, BRUHN and SOLEAU.

Required of Freshmen, Sophomores and Juniors who have been advanced from A.

Students who are required to take physical education may substitute with the consent of the department and the instructors concerned, in place of the required activities, the following competitive athletics:

Football. Professors JORDAN and ECKLEY, and Messrs. BRUHN and SOLEAU.

Soccer. Professor MARSH.

Track and Cross Country. Professor LUMLEY.

Swimming. Mr. KENNEDY.

Basketball. Professors JORDAN and ECKLEY and Mr. FUSCO.

Wrestling. Mr. SOLEAU.

Baseball. Professor ECKLEY and Mr. BRUHN.

Such substitution does not remove the requirement of the final examinations for all men at the close of the required period.

PHYSICS

Students planning to major in physics or take a major with honors must consult with members of the department.

1. General Physics; Mechanics, Sound, Heat, Electricity, Magnetism, and Light. Professor S. R. WILLIAMS.

It is the aim of this course to lay a good foundation for further study in both pure and applied physics. It is desired that out of a year's work may come a better understanding of the scientific method and spirit of modern physics. While the analytical method of presentation is stressed at times, fundamental phenomena and principles, rather than rigid theoretical derivations, are emphasized throughout the course. Plane trigonometry requisite. Students who have difficulty with mathematics are advised not to elect physics. Three hours class-room and two hours laboratory work per week. Fee, $9.00. *Elective for Freshmen.*

2. Mechanics, Heat, and Sound. Professor S. R. WILLIAMS.

A second year course in which such topics as statics and dynamics of rigid bodies, gyroscopic motion, gravitation, periodic motion, elasticity, kinetic theory of matter, heat, elementary thermodynamics, and sound are treated more fully than is possible in a first course in physics. Physics 1, Mathematics 2 (which may be taken concurrently) requisite. Three hours class-room and two hours laboratory work per week. Fee, $10.00. *Elective for Sophomores.*

3. Electricity and Magnetism. Professor STIFLER.

A general survey of fundamental principles with emphasis upon the theory and practice of electrical and magnetic measurements. Physics 1, Mathematics 2 (which may be taken concurrently) requisite. Three hours class-room and two hours laboratory work per week. Fee, $10.00. *Elective for Sophomores.*

4. Physical Optics, Optical Instruments, and Astrophysics. Professors GREEN and SOLLER.

Physics 1, Mathematics 2 (which may be taken concurrently) requisite. Three hours of class-room and two hours laboratory work per week. This course is offered in alternate years with Physics 5. Fee, $10.00. *Elective for Sophomores.* (*Omitted 1936–1937*)

5. Theoretical Physics. Professor STIFLER.

A fairly rigid mathematical treatment of certain classical problems in mechanics is followed by a discussion of analogous problems in sound, light, and electricity. In the latter part of the course these results are applied to some of the problems of modern physics, such as the theories

of atomic structure. Physics 1, Mathematics 2, and either Physics 2, Physics 3, Physics 4 or Mathematics 3, requisite. Three hours of classroom work per week. Courses 4 and 5 are given in alternate years. *Elective for Juniors.*

6. Experimental Physics. Professor S. R. Williams.

Primarily a laboratory course preparatory to graduate study. Students registered for it will be assigned special problems, with individual instruction. Certain hours of laboratory periods will be taken for discussion of the work. Physics 1 and 2 or 3, and Mathematics 2, requisite. Before a student registers in this course he must secure permission from the department of physics. Six hours laboratory work per week. *Elective for Juniors.*

POLITICAL SCIENCE

1. Comparative Government. Professor Loewenstein.

A comparative survey of the constitutions and the political conditions in the principal states, especially in Great Britain (and Dominions), France, Germany, Italy, Russia, Switzerland and Spain. Dictatorial government versus democratic government. Book fee, $2.00. *Elective for Juniors.*

2. American Government. Professor Bradley.

A survey of American politics, national, state, and local, particularly as to constitutional and administrative development and practice. Book fee, $2.00. *Elective for Juniors.*

3. American Foreign Relations. Professor Bradley.

The development of the foreign policy, economic and diplomatic, of the United States during the 19th and 20th centuries. Special attention will be given to American contributions to international law and organization and to the historical background of modern problems. *Elective for Seniors.*

4. Political Science in History. Professor Sherman.

The meaning of the State in human society from early times to the present. A genetic study of political theories in their historical and economic background. Readings from the works of political theorists and lectures on the historical origin and implications of their thought. Book fee, $2.00. *Elective for Juniors.*

5. Social and Political Theory in Its Present-Day Application. Professor SHERMAN.

Social, historical, and philosophic factors in liberal democracy, socialism, communism, and fascism. Readings from nineteenth and twentieth century political writers. Book fee, $2.00. *Elective for Juniors.* (*Omitted 1936–1937*)

6. Introduction to Jurisprudence. Professor LOEWENSTEIN.

Theories of the origin, the nature and the ends of the state and the law. A critical examination of the prominent legal concepts and schools of jurisprudence. The nature and the forms of the legislative and judicial process. A comparative analysis of developed systems of law. Book fee, $2.00. *Elective for Seniors.*

D. Conference Course for Candidates for Divisional Honors. Professors PACKARD, SHERMAN and COLE. *Elective for Juniors.*

H. Conference Course for Honors Candidates. Professor BRADLEY. *Elective for Seniors.*

PSYCHOLOGY

SCIENCE

Man and His Environment. Professor LOOMIS.

The course undertakes to point out how each inanimate object registers the story of its past, and that each plant or animal is a step in a long history of development. The local geology, plants and animals are first considered; and the course finishes with the evolution of the vertebrates, from fishes to man. Three class-room hours and two laboratory hours per week. Field trips will be substituted for the laboratory from time to time. Book fee, $3.00. *Elective for Freshmen only.*

NOTE.—This course, followed by Biology 1, 2 or 3, or Geology 1, in sophomore year, will satisfy the sequence requirement.

The History of Science. Professor WHITNEY.

A study of the evolution of the natural sciences. *Elective for Juniors.* *(Omitted 1936–1937)*

SPANISH

1. Pronunciation, Grammar, Composition, Translation, Conversation. Professor BAXTER.

Equivalent to entrance Spanish A. *Elective for Sophomores.*

2. Composition. Advanced Reading in the Modern Novel and Some Plays of the Sixteenth and Seventeenth Centuries. Professor BAXTER.

Lope de Vega; Calderón. Equivalent to entrance Spanish B. *Elective for Juniors.*

ADMINISTRATION

RECORDS AND REPORTS

The officer in charge of records and reports is the Recorder of the College.

Reports of standing are sent to parents or guardians at the end of each semester. Rank in each subject is reported as follows:

A, 90–100%; B, 80–89%; C, 70–79%; D, 60–69%; E, 50–59%; F, below 50%. The passing grade in each individual course is 60%, and an average grade of at least 70% is required for a degree.

HEALTH AND PHYSICAL DEVELOPMENT

The officer having general supervision of student health and physical development is the College Physician.

The College Physician is a member of the Department of Hygiene and Physical Education, and keeps himself acquainted with the health of the students and provides for their proper treatment if ill. Every student soon after he enters college is given a careful physical examination and advised how to maintain his health and increase his physical efficiency.

Three hours a week of physical education are required of the freshmen, sophomore and junior classes until the spring recess. Every student is required by the Department of Physical Education to be able to swim at least 100 yards.

All students are required to be present at the chapel exercises conducted Monday, Tuesday, Thursday and Friday mornings, and Sunday afternoon, in Johnson Chapel.

No student will be admitted to Amherst College who has not been successfully vaccinated, or who is unwilling to submit to such vaccination by the College Physician within three months after admission.

The College has an infirmary with fifteen beds, in charge of the College Physician. It contains an operating room for minor surgical cases, and an isolation ward for treatment of infectious diseases.

The College has a consulting medical staff comprising surgeons, orthopedists, internists, and specialists on the eye, ear, nose, and throat. Consultants are called in by the College Physician in case of injury or serious illness. The consulting staff has been appointed by the President upon the recommendation of one of the leading medical schools in the country. Students are, of course, free to consult physicians of their own choice, but where parents or students have not filed with the office the name of a physician or physicians they wish called, members of the consulting staff are called by the College. In emergencies requiring an immediate operation, when parents cannot be consulted in advance, the President will assume authority for authorizing the operation.

A health-service charge of ten dollars is made for each student, which entitles him to bed, board, general nursing, and attendance by the College Physician. For special care an extra charge will be made.

EXPENSES

All communications concerning tuition, fees, and rental of rooms should be made to the Comptroller of the College.

Tuition

The charge for tuition, including the use of the library and gymnasium, is four hundred dollars for the year, payable in two instalments, one of two hundred and twenty dollars at the opening of the College in September, and one of one hundred and eighty dollars at the beginning of the second semester.

Every student who takes an extra course in order to remove a delinquency incurred by a failure is required to pay an extra fee, at the rate of eighty dollars for a three-hour course for the year, estimated on the basis of credits allowed. Fifty-five per cent of this fee is payable at the opening of the College in September, and the remainder at the beginning of the second semester.

The charge for tuition for candidates for the degree of Master of Arts is four hundred dollars.

Special Fees

Student activities are under the general supervision of the Dean. Intercollegiate athletics are under the direct supervision of the Director of Intercollegiate Athletics. An activities fee of approximately twenty dollars is collected from every student. Part of this fee is used for student publications and entitles a student to a year's subscription to the *Amherst Student* and to a copy of the Amherst *Olio*. One dollar of this fee is allotted to the Amherst *Masquers* and entitles the student to a general admission ticket to each of the *Masquers'* productions. The remainder of this fee is used to support athletics and entitles a student to admission to all home athletic contests.

The students of Amherst College have voted to tax themselves ten dollars a year for four years as their contribution towards a new gymnasium. Five dollars of this tax will be collected on the first semester bill, and the remainder on the second semester bill. The fourth year will be 1937–1938.

The health tax of ten dollars is payable on or before the opening of the College in September.

Laboratory fees are required for certain courses in biology, chemistry and physics. The maximum fee for biology is fifteen dollars, for chemistry twenty dollars and for physics ten dollars. These fees are payable when the classes are

organized. Dues for breakage are payable at the close of each semester.

Certain courses carry a nominal fee of one to three dollars for reference books in lieu of text books otherwise purchased by the student.

Changes in courses elected, late registration, etc., involve nominal fees payable when incurred.

Every member of the senior class is required to pay a graduation fee of seven dollars at the beginning of the second semester.

Rooms and Board

The dormitories of the College accommodate about two hundred and fifty students, and the fraternity houses about three hundred.

Dormitory rooms may be rented singly, or in suites consisting of a study and either one or two bedrooms. The rooms are equipped with the essential articles of furniture, and many of them are provided with open fireplaces. All dormitories are equipped with House Libraries for the use of the students.

Dormitory plans and prospectus may be obtained from the Comptroller of the College. Rooms will be assigned in the early spring.

A payment of ten dollars is required when a room is engaged, this amount being credited on the account when the first payment is made. The balance of one-half of the yearly rental is payable at the beginning of the college year and the second half at the beginning of the second semester.

Dormitory rooms may be rented only for the entire academic year even in cases of withdrawal from College. Applicants who are not admitted to college will be released from their contracts, and deposits made to secure rooms will be refunded on written request to the Comptroller before

August first. Otherwise all applicants who engage rooms will be held responsible for the year's rental.

Dormitory rooms may be occupied on the Thursday before the week in which the college year opens.

Board is furnished at various places in the town at prices which range from seven dollars to nine dollars a week.

A cafeteria dining-room in Morrow Dormitory accommodates about one hundred and fifty students.

Summary

The following table shows three scales of annual expenditures. Clothing, travel, laboratory charges, books, membership dues in fraternities and other student organizations, activities fee, and similar miscellaneous expenses vary from two hundred dollars up.

Tuition	$400.00	$400.00	$400.00
Room (per student)	115.00	175.00	280.00
Board thirty-six weeks	252.00	288.00	324.00
Health Tax	10.00	10.00	10.00
Miscellaneous	200.00	300.00	400.00
	$977.00	$1173.00	$1414.00

SCHOLARSHIPS AND BENEFICIARY AID

The officer directly in charge of the administration of scholarships and beneficiary aid is the Dean of the College.

The beneficiary funds of the College aggregate seven hundred and fifty thousand dollars. The income of these funds is distributed annually among students of high character and good scholarship who need pecuniary aid.

The size of the award will depend on the financial need of the applicant. This award will be payable in two instalments,—at the beginning of the year, and in the middle of February. A scholarship holder who, at the end of the first semester, has failed to pass all his courses with an average of at least 70% will forfeit his second semester award.

SCHOLARSHIPS FOR THE THREE UPPER CLASSES

Applicants for scholarships, or for renewal of scholarships, from the three upper classes must file at the Dean's office, on or before June 1st, an account of their income and expenditures for the preceding year, and an estimate of their income and expenditures for the following year.

As a minimum scholastic requirement, sophomores must pass all the courses of the preceding year with an average of at least 72%, juniors with an average of at least 74%, and seniors with an average of at least 76%.

SCHOLARSHIPS FOR INCOMING STUDENTS

More than fifty scholarships are awarded annually to applicants for admission to college who are in need of financial aid and who meet in full the entrance requirements. These scholarships are awarded for the first half year and entitle the recipient to a credit on the first bill for tuition. The continuation of each scholarship for the second half of the year depends upon the student's grade for the first

semester, and, when granted, involves a credit on the second bill for tuition.

Blanks for application may be obtained from the Dean, and must be returned to his office on or before June 1st of the year in which the applicant expects to enter Amherst College.

STUDENT LOAN FUND

Through the liberality of friends of the College, provision is made for loans of a limited amount to a few students in the later years of the course, at a low rate of interest, upon notes to be paid in subsequent years. In accordance with the conditions imposed by the donors of the Loan Fund, its use is limited to students of thorough scholarship whose habits of expenditure are economical. Application blanks may be obtained at the Treasurer's office.

SCHOLARSHIP FUNDS

Throughout the whole history of the College funds have been given or bequeathed, the incomes of which are to be used for the assistance of worthy and needy students. A few of these funds are restricted to candidates for the ministry and a few of them are restricted by other factors, such as the geographical location of the home of the applicant. In a few cases it is stipulated that the award from a particular fund shall be made to a particularly designated student. For the most part, however, the income of these funds may be awarded as the College sees fit. Altogether these funds provide an annual income of slightly over $30,000. During recent years it has been possible for the College to grant additional amounts for scholarship purposes from its general income.

THE COLLEGE PLANT

Amherst College is located in the town of Amherst, Massachusetts, six miles east of the Connecticut River, some twenty-five miles north of Springfield and about ninety miles due west from Boston. The College owns altogether in Amherst about three hundred acres of land of which one hundred and ten acres constitute the main campus. On the campus are situated Johnson Chapel, Stearns Church, four dormitories which accommodate altogether about two hundred and fifty students, laboratories and museums, administration buildings, the Converse Library and recitation halls. Just off the main campus are the President's house, College Hall, which is the main auditorium of the College, the Faculty Club, the Amherst Alumni Gymnasium, the Davenport Memorial building for squash, the indoor athletic field and the college playground, Hitchcock Field. Somewhat further away but yet convenient to the main campus are the main athletic field, the golf club, the College Observatory and the college infirmary, Pratt Health Cottage. In addition the College owns considerable areas which are undeveloped farm land or forest and which serve as a protection to the College against undesirable developments in its vicinity. Near to the campus scattered throughout the town are thirteen fraternity houses in which some three hundred students reside.

HONORS

COMMENCEMENT EXERCISES

From the fifteen Seniors who have attained the highest general standing at the end of the first semester of senior year, speakers are selected upon the basis of literary and oratorical merit to deliver orations on Commencement Day. The Bond Prize of one hundred dollars is awarded to the speaker who delivers the best oration.

The Phi Beta Kappa Society

Juniors who have attained a grade of eighty-eight per cent after five semesters and Seniors who have attained a grade of eighty-five per cent after seven semesters are eligible for election to membership in the Beta Chapter of the Phi Beta Kappa Society; other undergraduates of outstanding scholarship, and graduates who attained the specified standing but who were not members in course, may be elected by a unanimous vote of the Chapter.

HONORS IN A SPECIAL SUBJECT

Honors in a single department of study are awarded for special work involving collateral reading or investigation.

Honors are entered on the Commencement program and announced in the annual catalogue.

HONORABLE MENTION

Honorable mention is awarded in the various departments under the following conditions:

(1) A standing of not less than seventy-five per cent attained in every department for the year.

(2) An average of ninety-three per cent maintained for a full year's course in the department in which honorable mention is sought.

The names of those who have honorable mention are announced in the annual catalogue.

PRIZES

The following prizes are offered annually for proficiency in the work of the several departments of collegiate study: the exact amounts awarded may vary slightly when they are dependent on the annual income.

ENGLISH

The Armstrong Prize, from the income of a fund of $1,000, given by Collin Armstrong of the class of 1877 in memory of his mother Miriam Collin Armstrong, awarded in the form of books to the value of forty dollars to members of the freshman class who excel in composition.

The Collin Armstrong Poetry Prize, from the income of a fund of $1,000, given by Mrs. Elizabeth H. Armstrong; forty dollars is awarded to the undergraduate author of the best original poem or group of poems.

The John Franklin Genung Prize, of fifty dollars, given each year anonymously in memory of Professor Genung, is awarded to that member of the junior or senior class who excels in prose composition.

The Harry Richmond Hunter, Jr. Prize, from the income of a fund of approximately $1,000, given by H. R. Hunter and Emma Louise Hunter in memory of their son, Harry Richmond Hunter, Jr.; forty dollars is awarded to that member of the sophomore class who presents the best essay on a topic approved by the English department.

GREEK

The Hutchins Prize, from the income of a fund of $1,000, given by the late Waldo Hutchins of the class of 1842; forty dollars is awarded to the best scholar in Greek at the end of the junior year. The scholarship is determined chiefly by the regular recitations and examinations of the department, but special studies and examinations may also be required of the candidates.

The William C. Collar Prize, from the income of a fund of $1,000, given by the late William C. Collar of the class of 1859; forty dollars is awarded to that member of the freshman class who shall make on a written examination the best version in English of a previously unseen page from some Greek author.

LATIN

THE BERTRAM PRIZES, from the income of a fund of $1,500, given by the late John Bertram of Salem; two prizes of thirty dollars each are awarded to those students who, together with attaining a high average in Latin 4, present the best essays on some approved topic connected with the course.

THE BILLINGS PRIZES, from the income of a fund of $1,000, given by Frederick Billings in memory of Parmly Billings of the class of 1884; two prizes of twenty-five dollars and fifteen dollars are awarded for general excellence in the work of the sophomore year together with the best essays on special topics connected with the authors read in that year.

THE FRESHMAN PRIZE, part of the income of an anonymous fund of approximately $1,500; twenty dollars is awarded for the highest scholarship in the Latin of the freshman year. The award is determined by the reading at sight of pages from Cicero, Livy, Horace, and Ovid.

THE JUNIOR PRIZES, part of the income of an anonymous fund of approximately $1,500; two prizes of twenty dollars each are awarded to those students who, together with attaining a high average in Latin 3, present the best essays on some approved topic connected with the course.

MATHEMATICS, PHYSICS, AND ASTRONOMY

THE PORTER PRIZES, from the income of a fund of $500, given by the late Eleazer Porter of Hadley; two prizes of ten dollars each are awarded for proficiency in first year physics and astronomy respectively.

THE WALKER PRIZES, part of the income of a fund of $6,000, given by the late William J. Walker of Newport, Rhode Island; two prizes of fifty dollars and twenty-five dollars are awarded for proficiency in mathematics of the first year and two prizes of seventy-five dollars and thirty-five dollars for proficiency in mathematics of the second year. In each case the award is determined by an examination.

ADMISSION PRIZE

THE PORTER ADMISSION PRIZE, from the income of a fund of $1,000, given by the late Eleazer Porter of Hadley; forty dollars is awarded to the student who passes the best examination in an ancient language, English, and mathematics at an examination in October open to all members of the entering class. The name of the successful candidate, together with that of his school or of the instructor with whom he prepared for college, is published in the catalogue.

PUBLIC SPEAKING

The Bancroft Prize, an annual gift of one hundred dollars from Frederic Bancroft of the class of 1882, awarded to that member of the senior class who produces the best oration. Both composition and delivery are considered in making the award.

The Bond Prize, from the income of a fund of $2,000, given by the late Ephraim W. Bond of the class of 1841; one hundred dollars is awarded for the best production spoken on the Commencement stage. The award is determined by a committee appointed by the Trustees upon nomination by the Faculty.

The Hardy Prizes, from the income of a fund of $1,000, given by the late Alpheus Hardy of Boston; two prizes of twenty-five dollars and fifteen dollars are awarded for excellence in extemporaneous speaking.

The Kellogg Prizes, from the income of a fund of $33,000, given by the late Rufus B. Kellogg of the class of 1858; two prizes of sixty dollars each are awarded, one to a member of the sophomore class and one to a member of the freshman class, for excellence in declamation.

The Rogers Prize, from the income of a fund of $1,000, given by Noah C. Rogers of the class of 1880; forty dollars is awarded to a member of the junior class for excellence in debate.

The Nelson P. Coffin Memorial, given in memory of Nelson P. Coffin of the Class of 1936 who died in his sophomore year, and awarded that deserving member of the Class of 1936 who has done the most for debating and public speaking during his college career.

PRIZE SCHOLARSHIPS

The Harvey Blodgett Scholarship, from the income of a fund of $2,000, established by Frederick H. Blodgett in memory of his grandfather, Harvey Blodgett of the class of 1829, is awarded to aid student work in biology and geology in their educational phases as distinct from their more technical and strictly scientific phases.

The Phi Delta Theta Scholarship, from the income of a fund of $500, established by the Phi Delta Theta Fraternity, is awarded as a scholarship at the Woods Hole Marine Laboratory to that student who has shown the greatest proficiency in biology.

(The two preceding scholarships usually are combined and awarded as one.)

The Addison Brown Scholarship, from the income of a fund of $5,000, bequeathed by the late Addison Brown of the class of 1852; two hundred dollars is awarded to that member of the senior class who, being

already on the scholarship list, shall have attained the highest standing in the studies of the freshman, sophomore, and junior years.

The Samuel Walley Brown Scholarship, from the income of a fund of $5,000, given by the late Samuel Walley Brown of the class of 1866; two hundred dollars is awarded to that member of the sophomore class who at the end of his sophomore year shall in the estimation of the Trustees rank highest in his class in character, class leadership, scholarship, and athletic ability.

The John Sumner Runnells Memorial, from the income of a fund of $5,000, given in memory of John Sumner Runnells of the class of 1865; two hundred dollars is awarded to that member of the sophomore class who shall in the opinion of the Trustees of the College be pre-eminent in his zeal for knowledge and industry to attain it.

OTHER PRIZES

The Dante Prize, of one hundred dollars, is offered annually by the Dante Society of America for the best essay by a student, or graduate of not more than three years' standing, on a subject drawn from the life or works of Dante. Competition for the prize is open to students and graduates of any college or university of the United States. Detailed information in regard to the rules of competition and choice of subjects may be obtained from the Department of Romance Languages.

The Anna Baker Heap Prize, from the income of a fund of approximately $900, given by the late Arnold N. Heap of the class of 1873; forty dollars is awarded to that Senior who submits the best essay in the field of "Art."

The John Gough Howard Prize, an annual gift of twenty-five dollars from the class of 1919 in memory of their classmate, John Gough Howard, Editor-in-Chief-Elect of the *Amherst Student*, killed in military service in May, 1919, is awarded at the end of the college year to that member of the Editorial Board of the *Amherst Student* or to the author of a communication appearing in its columns, who, in the opinion of a Board of Judges, has written, prior to May first, the best editorial or communication aiming to influence undergraduate opinion.

The Moseley Prizes, from the income of a fund of $5,000, given by the late Thomas W. H. Moseley of Hyde Park; two prizes of one hundred and fifty dollars and fifty dollars are awarded to members of the senior class for the best essays on a subject approved by the Department of Philosophy and Religion.

The Howard Hill Mossman Trophy, awarded annually to the member of the senior class, who, in the opinion of a committee consisting of

the President of the Student Council, the Professor of Physical Education, and the Director of Intercollegiate Athletics, has brought, during his four years at Amherst, the greatest honor in athletics to his Alma Mater —the word "honor" to be interpreted as relating both to achievement and to sportsmanship.

THE RALPH WALDO RICE PRIZE, from the income of a fund of $1,000, given by Mrs. May Rice Jenkins in memory of her brother, Ralph Waldo Rice, of the class of 1910; forty dollars is awarded for the best essay on "The Liberal College and Christian Citizenship" or any other subject named by the Faculty.

THE LINCOLN LOWELL RUSSELL PRIZE, from the income of a fund of $1,000, given by J. W. Russell, Jr. of the class of 1899 in memory of his son; forty dollars is awarded to that member of the graduating class who has done most to foster the singing spirit in Amherst College.

THE STANLEY V. AND CHARLES B. TRAVIS PRIZE, from the income of a fund of $2,000, given by the late Charles B. Travis of the class of 1864; eighty dollars is awarded to that member of the graduating class who has made the most improvement as a man and as a scholar during his college course.

THE WOODS PRIZE, an annual gift of sixty dollars in memory of the late Josiah B. Woods of Enfield, is awarded for outstanding excellence in culture and faithfulness to duty as a man and as a scholar—particular attention being given in any prominent case to improvement during the four years' course.

FELLOWSHIPS

THE ROSWELL DWIGHT HITCHCOCK MEMORIAL FELLOWSHIP

Of two hundred and fifty dollars, established through the agency of the Alpha Delta Phi Fraternity, is awarded annually, under conditions determined by the Faculty, to a member of the Senior class for excellence in history and the social and economic sciences. The holder of the Fellowship pursues for one year, at an institution approved by the Faculty, a course of study in history or economics, to be completed within the period of two years next following graduation. The amount of the Fellowship is paid in two instalments, one on completion of one-half the year's work, the other at the end of the year.

Applications should be made in writing to the Dean before January 7.

THE RUFUS B. KELLOGG UNIVERSITY FELLOWSHIP

The gift of the late Rufus B. Kellogg of the Class of 1858, awards the income of about thirty thousand dollars for seven years to an alumnus of Amherst College, who shall be appointed upon the following conditions:

(1) He shall be elected by the Faculty from the members of the class graduated at the close of the academic year in which this election shall be made, or from the members of the classes graduated in the six years immediately preceding the academic year in which this election shall be made.

(2) The Faculty shall select as the incumbent of the said Fellowship the man who, in their judgment, is best equipped for study and research, without regard to any other consideration whatsoever, except that he shall have an especially good knowledge of the Latin and German languages.

(3) The first three years of the term of seven years the incumbent shall spend at a German university (or with the approval of the Faculty of Amherst College, at any other place or places), in the study of philosophy, philology, literature, history, political science, political economy, mathematics, or natural science. The last four years of the term of seven years shall be spent as a lecturer at Amherst College. But the incumbent shall not give more than thirty lectures per annum, and shall not be required to reside at Amherst more than one college term of any year. The lectures shall be upon a subject selected by himself and approved by the Trustees and shall be given to the Senior class, but the members of all the classes shall have the privilege of attending; and the incumbent shall cause the lectures to be published at the end of his official term in good book form. He shall have no occupation or employment during the period of his Fellowship, except such as pertains to the duty of his Fellowship.

THE EDWARD HITCHCOCK FELLOWSHIP

Of nine hundred dollars was founded by the late Mrs. Frank L. Babbott of Brooklyn, N. Y., to promote graduate study in the department of physical education. Its object is to make the student familiar with the best methods of physical training, both in the gymnasium and on the field. The appointment is made by the Faculty.

THE AMHERST MEMORIAL FELLOWSHIPS FOR THE STUDY OF SOCIAL, ECONOMIC, AND POLITICAL INSTITUTIONS

Fellowships to perpetuate the memory of those Amherst men who gave their lives for an ideal. The following statement expresses the purpose of the donor of these fellowships: "Realizing the need for better understanding and more com-

plete adjustment between men and existing social, economic, and political institutions, it is my desire to establish a fellowship for the study of the principles underlying these human relationships."

Appointments to these fellowships may be made from the graduating class of Amherst College, or from the alumni of Amherst or of other colleges, the object being to permit men of character, scholarly promise, and intellectual curiosity to investigate some problem in the humanistic sciences. Candidates should be men of sound health. During previous training they should have given evidence of marked mental ability in some branch of the social sciences—history, economics, political science—and have given promise of original contribution to a particular field of study. It is desirable that they possess qualities of leadership, a spirit of service, and an intention to devote their efforts to the betterment of social conditions through teaching in its broad sense, journalism, politics, or field work.

Appointments may be made for terms of two years. Tenure may, however, be shorter or longer, depending upon the nature of the subjects investigated or upon other circumstances which, in the judgment of the committee, warrant a variation in the length of tenure. It is expected that, ordinarily, a portion of each appointment will be spent in study in Europe.

The stipend will vary according to the circumstances of the appointment. Awards will depend upon those aspects of individual cases which, in the judgment of the committee, most suitably fulfill the purpose of the foundation.

Applications should be made before January seventh upon blank forms to be obtained from the Secretary of the Amherst Memorial Fellowships, Dean's Office, Amherst College.

THE JOHN WOODRUFF SIMPSON FELLOWSHIPS AND LECTURESHIPS

A fund of $150,000 given in memory of John Woodruff Simpson of the Class of 1871, by his wife and daughter. The uses of the income as defined by the donors are as follows:

"1. To award to any graduate of Amherst College a fellowship for use in studying law at any school approved by the Board of Trustees of the College;

"2. To award to any graduate of Amherst College a fellowship for use in studying medicine at any school approved by the Board of Trustees of the College;

"3. To award to any graduate of Amherst College a fellowship for use in studying theology at any school approved by the Board of Trustees of Amherst College, without regard to the particular creed or particular religious belief taught thereat;

"4. To award to any graduate of Amherst College a fellowship for use in studying at any school, college or university approved by the Board of Trustees of the College, in preparation for the teaching profession.

"5. To award to any graduate of Amherst College a fellowship for use in graduate study at the universities of Oxford or Cambridge in England;

"6. To award to any graduate of Amherst College a fellowship for use in graduate study at the Sorbonne in Paris;

"7. To secure from time to time from England, France or elsewhere scholars for the purpose of delivering lectures or courses of instruction at Amherst College."

Application should be made in writing to the Dean before January 7.

THE FORRIS JEWETT MOORE FELLOWSHIPS

These fellowships, three in number, were given in memory of Forris Jewett Moore of the Class of 1889 by his widow, Emma B. Moore.

1. A fund of fifteen thousand dollars, the income of which is to be used to assist some graduate of Amherst College who has distinguished himself in the study of chemistry while an undergraduate and desires to engage in further study of that subject, preference to be given to eligible candidates whose plans lie in the field of organic chemistry. The beneficiary is to be a member of the graduating class of the year preceding that in which he holds the Fellowship.

2. A fund of ten thousand dollars, the income of which is to be awarded to a graduate of Amherst College who has distinguished himself in the study of history while an undergraduate and desires to engage in further study on that subject. The beneficiary is to be a member of the graduating class of the year preceding that in which he holds the Fellowship.

3. A fund of ten thousand dollars, the income of which is to be awarded to a graduate of Amherst College who has distinguished himself in the study of philosophy while an undergraduate and desires to engage in further study on that subject. The beneficiary is to be a member of the graduating class of the year preceding that in which he holds the Fellowship.

Applications for these Fellowships should be made in writing to the Dean before January 7.

FELLOWSHIPS AWARDED BY THE AMERICAN SCHOOLS OF CLASSICAL STUDIES AT ATHENS AND ROME

The attention of graduate students interested in the Classics and in Archaeology and Ancient Art is called to the opportunities offered by the American Schools of Classical

Studies at Athens and Rome. As the College contributes regularly to the support of these schools, any Amherst graduate may enjoy the privileges of study at either school without charge for tuition and may compete for the annual fellowships which they offer. Further information may be obtained from any classical teacher at the College.

THE SHERMAN PRATT FACULTY FELLOWSHIPS FOR STUDY ABROAD

These fellowships are awarded by the President of the College to younger members of the Amherst Faculty, on the basis of past performance in teaching and scholarship and programs for further study. The stipends may be fixed in such amount as the President may determine. Each holder of a Sherman Pratt Fellowship will be expected on his return to the College to deliver to the college body one or more lectures.

LECTURESHIPS

The Henry Ward Beecher Lectureship

This lectureship was founded by Frank L. Babbott, M.A., of the Class of 1878, in honor of Henry Ward Beecher, of the Class of 1834. The incumbent is appointed biennially by the Faculty for supplementary lectures in the Departments of History and the Political, Social, and Economic Sciences.

The Clyde Fitch Fund

A fund of twenty thousand dollars was established by Captain and Mrs. W. G. Fitch of New York in memory of their son, Clyde Fitch, of the Class of 1886. The income of this fund is to be used for the furtherance of the study of English literature and dramatic art and literature. The whole or part of this income is usually devoted to the remuneration of an eminent lecturer, who may also take a part in the regular instruction of the College.

The John Woodruff Simpson Lectureship

A fund of $150,000 was established in memory of John Woodruff Simpson, of the Class of 1871, by his wife and daughter. The income is to be used for fellowships and "to secure from time to time, from England, France or elsewhere, scholars for the purpose of delivering lectures or courses of instruction at Amherst College."
